

Data Set: B. Fox's Canadian Women's Labor-Force Time-series Data, 1946–1975

Data File: BFox.txt

Source:

Fox, B. (1980) *Women's Domestic Labour and their Involvement in Wage Work*. Unpublished doctoral dissertation [p. 449].

Variables:

participation: Percent of adult women in the workforce.

tfr: Total fertility rate: expected births to a cohort of 1000 women at current age-specific fertility rates.

menWages: Men's average weekly wages, in constant 1935 dollars and adjusted for current tax rates.

womenWages: Women's average weekly wages.

debt: Per-capita consumer debt, in constant dollars.

parttime: Percent of the active workforce working 34 hours per week or less.

Note: The value of tfr in 1973 should be 1931, not 2931.
